

Fishkill FUN! Camp

Covid-19 Procedures and Policies 2024

At Fishkill Recreation, safety is and has always been our # 1 priority. Our goal is to develop an exciting program full of fun activities and themes while keeping all of our campers and staff safe and healthy.

In collaboration with our local health department, the following is action plan in response to COVID-19. Please note that this plan is subject to change as new guidance or situations may develop.

Health Screening:

- Staff and campers must stay home if you are sick, not feeling well, or presenting a fever.
- If a staff or camper becomes ill while at camp, they will be removed from their group until they can be picked up or sent home. All parents should have a backup plan in the event that they are unable to pickup their child while camp is in session.

Masks/Facial Coverings:

- Masks/facial coverings are optional for all campers & staff.
- If you prefer your child to wear a mask we will ensure that your child keeps one on.
- As always. . . Please use your best parental judgment on sending your child to camp if he/she falls within the vulnerable populations (asthma, compromised immune systems, etc).

Handwashing Hygiene:

- Counselors will urge campers to wash hands frequently throughout the day, especially before lunch.

DEFINITIONS:

Isolation is for individuals who have been *infected* with COVID-19, even if they don't have symptoms. You isolate in order to prevent spreading the virus to others.

Quarantine is for someone who has been *exposed* to the Covid-19 virus through close contact with someone who is infected, but has not tested positive for COVID-19 and does not have symptoms. Quarantine is important because even before a person has tested positive for COVID-19 or has any symptoms, they can spread the virus without knowing.

“Close Contact/Exposed”: A close contact is defined as anyone who has had exposure to a positive within 6 feet for 15 minutes or more (*the 15 minutes do not need to be in a row. It could be a culmination of time throughout the day*).

“Up to Date With COVID-19 Vaccines”: You are **up to date** with your COVID-19 vaccines when you have received all doses in the primary series and all boosters recommended for you, when eligible.

WHAT TO DO IF YOU TEST POSITIVE OR EXPOSED TO COVID-19?

Please see the respective Flow Charts on Page 3 & 4 to determine the steps to be taken if you test positive or become exposed to COVID-19.

If a Camper or Staff Member Tests Positive for COVID:

Day 0:	Camper or staff member tests positive for COVID-19.		
ISOLATION:			
Day 1-5:	<ul style="list-style-type: none"> Stay home for 5 days and isolate from others in your home. Wear a well-fitting mask if you must be around others in your home 		
Day 6-10:	Is the camper or staff member fever free? <i>(without fever-reducing medication)</i>	YES →	<ul style="list-style-type: none"> Camper/staff member may return to Camp. The Dept. of Health <u>recommends</u> wearing a well fitted mask through the 10th day. If symptoms develop, isolate until test results.
	AND Is the camper or staff member free of Symptoms?		
Day 11+:	If the fever and/or symptoms are still present:	Consult a healthcare professional before returning to camp	

If a Camper or Staff Member has been exposed with someone who tested positive for COVID-19:

	<p>Camper or staff member is exposed: Has the camper/staff had a confirmed COVID-19 within the last 90 days AND is symptom free?</p>		
Day 0:	Yes ↓	NO ↓	
	<ul style="list-style-type: none"> Camper/staff member may return to Camp. The Dept. of Health <u>recommends</u> wearing a well fitted mask through the 10th day. If symptoms develop, isolate until test results. 	Is the camper/staff up to date with COVID-19 vaccines?	
		← YES	NO ↓
QUARANTINE:			
Day 1-5:	<ul style="list-style-type: none"> Stay home and quarantine for at least 5 full days. Wear a well-fitting mask if you must be around others in your home 		
Day 6-10:	Is the camper or staff member fever free? <i>(without fever-reducing medication)</i> AND	YES →	<ul style="list-style-type: none"> Camper/staff member may return to Camp. The Dept. of Health <u>recommends</u> wearing a well fitted mask through the 10th day. If symptoms develop, isolate until test results.
	Is the camper or staff member free of Symptoms?	NO →	Camper or staff member must remain isolated through the 10 th day
Day 11+:	If the fever and/or symptoms are still present:	Consult a healthcare professional before returning to camp.	

Please note that this plan is subject to change as new guidance or situations may develop.
